## DETAILED ACTION

The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 17 is rejected under 35 U.S.C. 102(b) as being anticipated by Eddison et al.'926 (Eddison). Eddison discloses a downhole adjustable bent housing for use in drilling operations (figures 1-12) comprising a first housing section 30, a second housing section (generally 20) and a connector (31,32) for connecting the first and second housings and permitting pivoting movement there between (as seen in figure 2), an actuation member movable in a generally axial direction (as seen in figures 4 and 7, reference numeral 42) and a member 37 secured within the second housing section at a position interfering with the movement of the actuation member causing pivotal movement of the first housing section.
